Portfolio

TECH SKILLS

Languages: Java, C, Python, Apex.
Frontend: HTML5, CSS3, JavaScript (ES6+),
Backend: PHP, Laravel , Java(jpa jdbc).
Tools: Git, GitHub, VSCode,
Databases: MySQL, SOQL.
Concepts: MVC, Agile.

CO-CURRICULAR ACTIVITIES

- Solved 130+Problems LeetCode, and other platforms.
- Served as a senior Executive of BUCC(BRAC University Computer Club) Creative Department.

SOFT SKILLS

- Proficient in algorithm optimization and complexity analysis.
- Curious mindset
- Teamwork
- Time Management
- Presentation
- Documentation
- Drawing using digital platforms and mathematical equations.
- Basic 3D designing in MS 3D Builder.

PROFILE

A Computer Science graduate specializing in PHP/Laravel and Java-based backend development, algorithms, and object-oriented design. Experienced in building web applications using Java and JPA.
Strong problem-solving background from competitive programming and hands-on work with databases and
cloud tools.

EDUCATION

B.Sc. in Computer Science and Engineering — BRAC University
CGPA:3.24 out of 4.00.
NON-MAJOR: OOP(JAVA), Image Processing.
Graduated in summer,2023.

WORK EXPERIENCE

Inovi Solutions, Banani — Salesforce Internship
Apr 2025 – Aug 2025
• Built and optimized backend logic using Apex (Java-like syntax) for CRM solutions.
• Worked with REST APIs, data modeling, and component-based architecture (LWC & Aura).
• Integrated and deployed backend services using Salesforce Dev Console and VS Code.
• **Tech Stack:** Apex, Node.js, SOQL, REST APIs.

PROJECTS (link)

Thesis-Machine Learning for Stress Prediction
BRAC University (Spring 2022 - Spring 2023)
• Decision tree, GNB, Random forest, Linear Regression.
• **Technical Skills:** Google form, sheet and Colab, Overleaf-LaTeX.
• **Soft Skills:** Time Management, Teamwork, model implementation.
• https://dspace.bracu.ac.bd/xmlui/handle/10361/19386

Basic user login and landing page using php
• Designed a login module and landing page for students for monitoring their academic performance and schedules.
• No framework was used here, only php, javascript and basic CSS alongside html.

Student Management Laravel Project
• Laravel based project focused to aid teachers keeping and publishing student information.
• Framework- laravel, Language-php, Database-Mysql.
